

### EmconIT - Authorized Reseller

Nimble is a emerging and revolutionary storage technology that differentiates itself from the legacy players in the market. They were founded 8 years ago with the understanding that another major technology catalyst would transform the storage industry. The catalyst surrounding these changes were Flash, Cloud Connectivity and Big Data Analytic's. Nimble has designed their technology from the ground up with these catalysts in mind especially with the release of the Hybrids and All Flash Arrays that over 7,600 customers are now utilizing in their environments worldwide.

Our Customers Require Up To  
**10x Less Rackspace**

Our Customers Get  
**Blazing Performance**

Our Customers Enjoy  
**Virtually Zero Downtime**

## Key Benefits of Nimble

- 1/3 of the cost! The technology decouples from disk, so less hardware.
- 33-66% lower TCO, 5X smaller footprint in Datacenters so less power, coolant, rack space, etc.
- 99.9999% of availability, 6 9's of availability a true enterprise class solution.
- Licenses are included so no licenses fees.
- 1 of 5 companies with a CVD in place with Cisco.

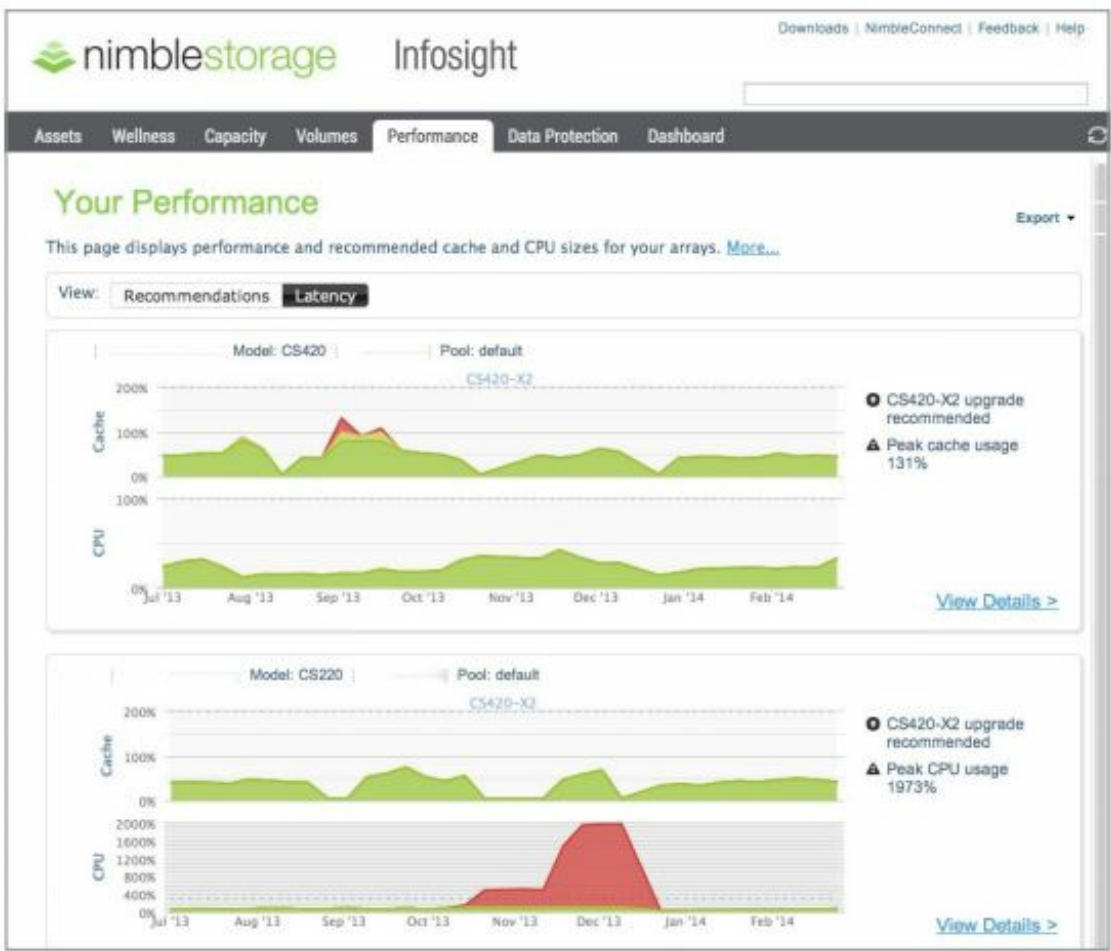

- Cloud Connectivity via InfoSight to monitor over 14,000 arrays deployed with predictive analytics.
- 90% of support cases are opened by InfoSight and 85% are closed without human interaction.
- Call support has only L3+ engineers.
- No Forklift Upgrades needed. Seamless Migrations. If you need to get more performance or upgrade, just swap out the Controllers.
- Maintenance fees protection and free controller upgrade 25% or better at time of maintenance renewals.
- A leader in the Gartner Magic Quadrant and adding on average 480 net new logos a quarter. Fastest growing company in the industry.
